Yesterday, I went with my family to the Scientific Center to watch a scientific movie in the I-MAX. It was about one of the most dangerous dinosaurs, which lived over 60 million years ago. It was called T-Rex. I used my 3D glasses that made me feel like I was inside the movie. I was **scared** when I saw that giant animal close to me so I held mom's hand to feel safe. T-Rex looked like a huge lizard with sharp teeth. Its body was as long as a school bus and taller than a house. It weighed more than an airplane. T-Rex's head was as long as a kitchen table.

T-Rex was one of the biggest meat-eating dinosaurs. It could eat hundred pounds of meat in one bite because of its big mouth and sharp teeth. T-Rex had 60 sharp teeth; some of **them** were as big as bananas. It had two powerful legs and two small arms. Its strong tail stopped it from falling over. When the movie finished, I felt so comfortable that dinosaurs died long time ago and we will not see them anymore.
