B- Reading Comprehension (16 Marks)

- Read the following passage carefully, then answer the questions below:

There are houses all over the world. Some houses are large. Some are small. Some are made of wood. Some are made of rock. Some are made of mud. Some are made of cloth. In cold places, some houses are made of ice.

People usually build their houses with something that is easy to find. For example, there are many trees in a forest. So people who live there might build a house made of wood. There is often a kitchen for cooking. There is usually a bathroom and a living room for sitting and talking. Some houses have basements. **They** are under the main part of the house. Some houses have attics. The attic is above the main part of the house.

Most houses have windows so the people can look outside. Windows also let air into the house from outdoors. Some houses are **fancy**. They are painted in bright colours, and are very decorative. Some houses are not fancy, they are plain and simple. But people who live in a house probably all agree that there is no place like home!
