### B) <u>Reading Comprehension (16 Marks)</u> Read the following passage carefully, then answer the questions below: (199 words)

Have you ever visited a lighthouse? Lighthouses can be symbols of many different things. For tourists, they can be interesting places to visit, and photograph. For people who love history, they are windows to the past. For sailors, they are signs of safety. Lighthouses are located along the coasts of oceans. They project a strong light that tells sailors that the land is near and warns them of dangers.

Lighthouses are built with a living part for the lighthouse keeper. He looks after the lighthouse and ensures that it is always working properly. Although it can be lonely at times, it is an important job. Lighthouse rays can be used differently to help sailors identify the lighthouse and their location. Each lighthouse has its own patterns, lengths and flashes that make it unique. Sailors can observe them and then look them up in a reference book that will tell them which lighthouse **they** have found.

During the day, sailors can identify lighthouses simply by their looks. Some lighthouses are painted in special colours. Others are known by their shapes. Many lighthouses are no longer working. They are sometimes **<u>converted</u>** into museums, educational centers, or even private homes.
